# It pays to plant Offeiffer's

Founder of the Pfeiffer Nursery, Specialist in the propagation of Peonies, Iris and Gladiolus bulbs.

## PRIZE WINNING FLOWERS

It is thirty three years ago this spring when we here at this Nursery first began growing plants and bulbs for our friends and customers. We have always insisted that it pays to get the best when you are growing bulbs and flowers. For 33 years it has been our ambition to see to it that you receive from us only the very best plant material obtainable anywhere. That we have succeeded in a small measure at least in realizing our ambition is born out by the hundreds of fine letters we have received, thanking us for the wonderful flowers our good customers are growing from plants and bulbs that they received

We are growers and not jobbers, and with very few exceptions sell only the stock we grow. Selling direct as we do we are able to give you better stock at prices which are consistently low for the quality of the stock we send out.

Starting on a twelve acre piece of ground thirty three years ago, we have gradually increased our plantings until today we operate over a hundred acres.

The location of our Nursery at Winona is especially favorable. The soil conditions of the Mississippi Valley are ideal. It helps us produce vigorous plants and bulbs which will thrive and do well in practically any location in the U. S. The plants have to be hardy to withstand a climate which varies from 30 degrees below in the winter to 100 degrees in the shade in the summer such as we have here. These conditions and the fact that we always try to please our customers are largely responsible for the excellent success flower lovers in all parts of the country have with Pfeiffer's Prize-winning Quality stock. If you are not a Pfeiffer Customer won't you give us a trial order this spring?

L. E. PFEIFFER

Son of C. A. Pfeiffer, who has been in this business 33 years with his father, working and helping to increase the Pfeiffer reputation for quality.

## DOUBLE HOLLYHOCKS

We have an extra fine lot of strong field grown Double Hollyhock plants in storage, that can be shipped out any time. We plant only the best of seed, but as the colors do not always come entirely true to name, we cannot guarantee them to color, although over 90% should come true.

#### **BLEEDING HEART**

Dicentra Spectabilis

Dicentra Spectabilis
This old-fashioned flower is still a favorite with everyone. Its long racemes of graceful, heart-shaped, pink flowers are always attractive. It blooms early, and here in Minnesota is always in bloom for Memorial Day. It is equally effective as a cut flower or a border plant, and after the flowers are gone, the cut-leafed foliage lends a pleasing effect in the perennial planting.

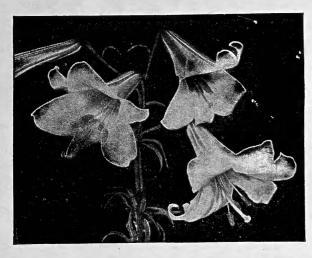

Strong plants . . . 50c each; 3 for \$1.25

## HEMEROCALLIS

family resembling lilies in character and bloom, usually sweet scented and bearing a great quantity of various shades of yellow flowers during long periods of sum-mer. Very showy in the garden. 2 to 4 feet in

## **HARDY LILIES**

REGAL LILY

The following varieties of Hardy Lilies are the best of them all. They are unusually hardy and will winter over in the ground in the severest weather. The bulbs we use are all good size flowering bulbs, and will bloom freely the first season.

REGALE (Regal Lily). White tinted pink on the outside. Blooms in July. 2 to 3 feet . . 25c each; 5 for \$1.00

TENUIFOLIUM (Coral Lilv). Small bright scarlet flowers on slender stems. Fragrant. 20c each; 2 for 35c

UMBELLATUM (Candlestick Lily). Orange red flowers in upright umbels. From 5 to 12 flowers on a single stem......25c each; 2 for 35c

SARAH BERNHARDT, Apple-blossom pink
LAURA DESSERT, White, yeilow center
VICTOIRE DE LA MARNE, Amaranth red
A \$4.25 VALUE

All 4 Postpaid, ONLY ... \$3.00

The demand for different flowers seems to run in cycles. Right now this demand is running back to Peonies. The past two seasons we have had more orders for Peonies than at any time in the previous ten years. This evidently is partly because our good customers know that we send out only first class plants, true to name, partly because Peonies are so hardy and easy to grow, and because when once they are planted, they get better every year.

Spring planted Peonies do every bit as well as fall planted ones, some people think even better, but plants set out in the spring must be dug and divided in the fall and kept in cold storage all winter.

All Peony plants offered are strong, 3 to 5 eye divisions from young clumps, with plenty of good healthy roots. They are in cold storage and can be shipped any time you want them, but the earlier you get them planted, the better.

NOTICE:—ALL SPRING PEONY OFFERS EXPIRE MAY 15, 1942 OR WHEN THE SUPPLY IS EXHAUSTED.

#### PEONY RATINGS

The figures following the name in the Peony descriptions are the official ratings given by the American Peony Society: 10 points being perfect. Any Peony rating 7.0 is good, over 8.0 very good and over 9.0 exceptionally good.

The following letters designate the blooming season. E, early; M, midseason; EM, early midseason; LM, late midseason; L, late.

GYPSOPHILA BRISTOL FAIRY

## **BABY'S BREATH**

GYPSOPHILA BRISTOL FAIRY

This new, extra large, double Gypsophila has great vigor, and produces much larger flowers than the ordinary variety. It grows about two feet high, and will bloom almost continuously if the flowers are picked. It is unsurpassed in mixed bouquets or will produce a pleasing effect in the border. It does well anywhere.

## Giant Flowering Dahlias

Dahlias are becoming better known and more popular every year. Blooming in the fall when our gardens need color is one of the reasons, but other reasons are the fact that they are so fascinatingly beautiful, so easy to grow and have such a complete range of color that everyone likes them.

We are again listing several fine Dahlia Collections. If you don't have any definite idea as to the exact varieties you want, any of these Bargain Collections are sure to please you. They contain only the best varieties that have proven their dependability.

All Dahlias we send out are strong root tubers with live eyes, the kind that produces the best results in the shortest possible time. We sell no green plants or rooted cuttings. All tubers can be mailed out any time after March 15th. The following abbreviations indicate the type each variety belongs to. F. D.—Formal Decorative; S. C.—Semi-Cactus; C.—Cactus; D.—Decorative; I. D.—Informal Decorative; B.—Ball; I. C.—Incurved-Cactus; B. D.—Ball-Decorative.

## PFEIFFER'S GORGEOUS

# **GLADS**

Thirty-two years ago we started growing Glads on a large scale. Since then "Glads' have become the most widely grown and most popular of all the flowers known. Our Glads are being grown now in every State in the Union, and our many good customers are reporting wonderful blooms from them in all parts of this Country. We have never specialized in bulbs which retail at excessively high prices, but rather in the better, moderate priced varieties. Every year we discard about fifteen or twenty kinds and add about that many new ones. In this way we are able to keep up our selection of good varieties without adding those which cost over a dollar a bulb.

Again this year as in the past, we are offering over 200 varieties, as well as several Bargain Collections. If you are willing to trust to our thirty years experience in growing "Glads" and don't know just which varieties you want, we suggest that you plant one or more of our Collections. They are made up for you and we know you will like them. If you want certain definite varieties we are sure you can find just the color you want. The prices on many have been greatly reduced, and you can take six of a variety at the dozen price.

All bulbs used are large blooming size young bulbs, and with reasonable care and normal weather, will give you excellent results wherever planted.

## Over 200 Varieties of GLADS to Choose From

#### Rainbow Collection No. 1 This Collection is chosen for those who wish a riot of color and do not care This Collection is chosen for those who wish a riot of color and do not care for the names. It is made up of five bulbs each of 20 excellent varieties, all different, including such popular varieties as Margaret Fulton, Picardy, Wasaga, Sunshine Girl, etc. The early, medium and late varieties in it will give you enough blooms to have continuous bouquets for six weeks. It includes orange, violet, rose, white, yellow, lavender, pink, orchid, red, cream and all shades in between. The bulbs used are good medium size, all 1 to 1½ inch in diameter. They come mixed (we mix them) and unlabeled, and all are sure to bloom. Betty Nuthall, coral pink and the sty Nuthall, coral pink and the sty Nuthall, coral pink and the style of th Five Bulbs Each of Twenty Varieties, Unlabeled, Blooming Size Bulbs. \$1.00 100 Bulbs, Postpaid, ONLY

## Rainbow Collection No. 2

This Bargain is the same as No. 1, except larger bulbs are used. Large Blooming Bulbs, Size 11/4 to 11/2 Inch.
